

Overseas Moves

Town and Country Moving and Storage utilizes all modes of transportation when planning an overseas relocation. Whether it is selecting air freight to meet a deadline, exclusive-use truck transportation to the port of embarkation or steamship service to provide the most direct, cost effective routing, T & C Moving and Storage has the experienced team and traffic management system in place to accomplish the required result...effective forwarding and successful completion.

A computerized tracking system is used to monitor shipments worldwide. Through the use of available on-line services with transportation companies and email / fax communication with overseas agents, current status of all shipments is available at any stage in the moving process.

Accounting, administration and operational activities are all processed by a custom-designed, information system network. Transportation modes have changed over the years. Town and Country Moving and Storage keeps pace with on-line computer tracking and service contracts with various transportation providers.

One of the most important components of a successful overseas forwarder of household goods is a worldwide network of agents who services their shipments. We have that network and we can assure you that every effort will be made to meet or exceed your expectations for a successful overseas relocation.
